irradiation in the production, processing and
handling of food.

3714 '99 MAY 19 P2:27

A'ole (No) quick and temporary fix for poor
healthfood sanitary marketing practices thru using
IRRADIATION methods.

First, I don't want ~~Federal~~ ^{AD} Food and Drug
Administration to remove laws that remove all
current labeling requirements for IRRADIATED
foods.

Secondly, it is completely UNETHICAL to impose
IRRADIATION on US Consumers who DO NOT
WANT IT!

I insist food products IRRADIATED be labeled as
Consumers are being misled otherwise. They ~~want~~ ^{don't} to
know irradiation destroys vitamins and causes
changes in sensory and spoilage qualities that are
not outwardly obvious to Consumers.
